

Drift On

Butterfly Boucher

If the waters cool
I might just swim
If the sun shines right I might be here all day
I'd drift away
In a sunken state
I'm busy lappin' it up
I might be here all day

With the tides and their little secrets
Whispering to me to sleep
Would you take away my weakness?
"drift on
Drift on"

If the waters cool
I might just swim
If the sun shines right I might be here all day
I'd drift away
In a sunken state
I'm busy lappin' it up
I might be here all day

With the ripples and their stories
Cooking up a storm.
Will you carry all my weakness?
"Drift on
Drift on" If the waters cool
I might just swiiiiiiiiimmm
I'd drift away in a sunken state
I'm busy lappin' it up
I might be here all day
With the under current lurking
Watching sideways from afar
Could you take away
My weakness
I'm not that strong?
You see I feel so heavy
Without you
And you say
"Drift on
Drift on
Drift on...
...drift on
Mmmm
Stay strong
Drift on"

If the waters cool I might just swiiiiimmm
