

## Shit Like That

### Butthole Surfers

I keep seeing cloth in my mirror  
Which one?  
My stomach hurts so bad I could die  
I'm moving into a neighborhood I can't stand  
The sky is changing colour  
There's a metallic paste in my mouth  
It's been a great winter  
Everything went sour

Shit like that  
Shit like that  
Shit like that  
Shit like that

They cut me off at the clinic  
I had to fight another doctor  
I found him in the yellow pages  
Maybe I'm bi-polar

Shit like that  
Shit like that  
Shit like that  
Shit like that

The sky is changing colour  
There's a metallic paste in my mouth  
It's been a great f\*\*king winter  
Everything went sour

Shit like that  
Shit like that  
Shit like that  
Shit like that
