

## Love You More

Buzzcocks

I'm in love again  
Been like this before  
I'm in love again  
This time's true I'm sure

Don't wanna end up like no nine day wonder  
I've been hurt so many times before  
So my darlin' I will never leave you  
It's in my blood to always love you more  
Love you more

It's my heart again  
That drives me so wild  
I just can't explain  
Although I'm not a child

So why would I cry if you ever left me  
Maybe 'cos you're all I'm livin' for  
With every heartbeat I want you madly  
It's in my blood to always love you more  
Love you more

Oh my love again  
What I say is true  
Though it may sound plain  
I love you

And it means more to me than life can offer  
And if this isn't true love then I am sure  
That after this love there'll be no other  
Until the razor cuts
