

# Burning Down The House

BWO

I have seen the light years passing  
Facts about the stars amassing  
Stormed my station through the cosmic weather  
Now I'm grounded in my rocket  
Pull the sonic to the socket

Take me higher set the fire  
Take me higher tie the wire  
Take me higher set the fire  
I just want to rock the planet  
Dancing like a man of granite  
Let's go party like there's no tomorrow

We have been exotic places  
Traveled to the end of spaces  
Done our little bit of quantum jumping  
You have seen me play Darth Vader  
Acting like a space crusader  
Let's go party while the base is pumping

Take me higher set the fire  
Take me higher tie the wire  
Take me higher set the fire  
I just want to rock the planet  
Dancing like a man of granite  
Let's go party like there's no tomorrow

I just want to rock the planet  
Dancing like a man of granite  
Let's go party like there's no tomorrow

Once I was the one and only  
But life in space can be so lonely  
Dragged along into a long forever  
Some day when my trip's completed  
I will have those thoughts depleted  
Only memories of our nights together

Take me higher set the fire  
Take me higher tie the wire  
Take me higher set the fire  
I just want to rock the planet  
Dancing like a man of granite  
Let's go party like there's no tomorrow
