

Happiness

BWO

I've reached the end
My life has been deranged
From tears to joy
My life's about to change
I'm coming out
Now things will go my way
It's gonna be a perfect day

I've earned my happiness forever
A change is gonna come
Happiness together
With love and wine and song
But when I seize the perfect moment
And life's about to shine
Happiness salutes me everytime

I'm always last to grasp what's going on
I'm on the right but always end up wrong
I break a leg with heartache still attached
What can I do to shape my act

I've earned my happiness forever
A change is gonna come
Happiness together
With love and wine and song
But when I seize the perfect moment
And life's about to shine
Happiness salutes me everytime

I've reached the end
The point of no return
From here it's only crash and burn

I've earned my happiness forever
A change is gonna come
Happiness together
With love and wine and song
But when I seize the perfect moment
And life's about to shine
Happiness salutes me everytime

But when I seize the perfect moment
And life's about to shine
Happiness salutes me everytime
