

Right Here Right Now

BWO

Where did your love aspire
The dream was sold and you bought the bouquet
Where did your love aspire a power to behold
Caught by a sweet desire
The night was cold but love what's saved the day
Caught by a sweet desire, the torments of your soul

Loving ain't easy
You know I feel your pain
Loving ain't easy
We've been crying in the rain

I'm talking 'bout love right here
Talking 'bout love right now
Talking 'bout love right here
I'm talking 'bout love

Now when the love backfired
The dream was gold, the things have gone astray
Now when the love backfired you need to lose control

Loving ain't easy
You know I feel your pain
Loving ain't easy
We've been crying in the rain

I'm talking 'bout love right here
Talking 'bout love right now
Talking 'bout love right here
I'm talking 'bout love

Time is the clock of the heart
Time is the clock of the heart
Time is the clock of the heart

Time is the clock of the heart
Time is the clock of the heart
Time is the clock of the heart

Loving ain't easy
You know I feel your pain
Loving ain't easy
We've been crying in the rain

I'm talking 'bout love right here
Talking 'bout love right now
Talking 'bout love right here
I'm talking 'bout love

Loving ain't easy
You know I feel your pain
Loving ain't easy
We've been crying in the rain

I'm talking 'bout love right here
Talking 'bout love right now
Talking 'bout love right here

I'm talking 'bout love

Love right here, give me love right now
Give me love right here, give me love right now
Give me love right here, give me love right now
Give me love right here, give me love right now

I'm talking 'bout love right here
Talking 'bout love right now
Talking 'bout love right here
I'm talking 'bout love
