

Better Part Of You

By The Tree

You wished on a star today
You made them fall right into place
You want to dance, and you want to sing
You would give up everything
Just to hear your story told
Just to see you life unfold

Doubt makes it hard for you to see that way
You and I, we're runnin freely
Never knowing, never nearly
Hangin around until I find you there
So unaware too
Don't let them take the better part of you

Time is on your side
So am I too
I know the reasons
You have found yourself believing
So put your past behind
Let love be your guide

'Cause you and I, we're runnin freely
We will never know, and never nearly
Hangin around until I see you there
So unaware too
Don't let them take the better part of you

Don't let them take, wipe your tears away
Don't let them take, don't let them take
Don't let them take it all away
Don't let them take that from you
The better part of you...
