

# Raining Down

By The Tree

I know you're here, your here with me  
And I feel your touch, your hand upon me  
And I feel you close, you're closer than the song I sing  
And I feel You coming, coming like the rain  
I feel your presence falling all around me

[Chorus: x2]

Raining Down

I feel your spirit falling all around me now

My true friend, the beginning and the end  
Jesus, you're always there for me  
I just want to see You  
I just want to be with You

[Chorus]
