

Raining Down

By The Tree

I know you're here, your here with me
And I feel your touch, your hand upon me
And I feel you close, you're closer than the song I sing
And I feel You coming, coming like the rain
I feel your presence falling all around me

[Chorus: x2]

Raining Down

I feel your spirit falling all around me now

My true friend, the beginning and the end
Jesus, you're always there for me
I just want to see You
I just want to be with You

[Chorus]
