

Satellite

By The Tree

I am revolving around your sun.
Sending a message to everyone.
Wanna be your signal
Wanna be your sound
Can you feel it now?

[Chorus]
(Be your satellite)
To this world I'm shining like a star.
(Burning through the night)
Reflect your love and be your satellite.

Write your name across the sky
Tell them the reasons why your love will never fail.
Wanna be your signal.
Wanna be your sound.
Can you feel it now?

[Chorus]
