

## Taking Up Serpents

Byzantine

No religion persuades me but the religion inside of me  
I'm alive  
Tower of Babel fell for a reason the tongues that you speak is  
laid of flies  
Your not anointed to take up the serpent you've  
Backslid on all of your faith  
This line to heaven shall not fit you in no room for such a dis  
grace

You deserve fire

Fire set alight  
Burns the mark in my soul brilliantly  
Rise following signs  
I am catatonic the spirit is inside  
Glory beâ?|

I burn all the bridges I see  
We pull in sunder instantly  
Embody the laws of all hate  
A latticework of pseudo-faith

Why wait? Subjugate forcing the gospel outside it's own gate  
This is an intimate portrait of faith of believers who fear the  
same fate  
Lead me from hell with salvation cocktails I deny any treatment  
you praise  
Fiction looks best when it's dipped in deceit of your  
Brush arbor meetings a virulent sweep in disguise

Fire set alight  
Burns the mark in my soul brilliantly  
Rise following signs  
I am catatonic the spirit is inside

Glory be...

I burn all the bridges I see  
We pull in sunder instantly  
Embody the laws of all hate
