

## The Devil's Arithmetic

Byzantine

I... I am your God  
Outlast the sun  
Science exact  
Arrange my DNA recombinant  
To form complete authority

Eyeless your father's led  
Shameless like sows they fed you  
Cattle I penetrate your fold  
I desecrate you whole  
My own devilization turns inside  
The wick burns slow against the side  
Magnify the anomaly by nourishing  
The hemorrhage of the soul

Adapt to my environment  
On passive wills I will anneal  
Your flesh is what I mould upon  
In time you will conform to the feel  
Hammer upon my implement  
To supplement my suffering  
In time like any parasite  
Discard the host after the vile feasting

I saw God in you  
A fake God in you
