Amore

On the island of my dreams Where there's only you and me Playin' games for lovers only On and on a thousand times or more

When the day comes to an end And that feelin' comes again I'd love to cherish every moment All those summer nights I've spent with you

Play for me and let me dream forever Dance with me surrender to the night

Yes tonight we're gonna sing "Amore" Hear this melody, a song of love Hold me in your arms, that's really love, that's amore Kiss me with your charms, that's really love, that's amore

Hold me in your arms, that's really love, that's amore Kiss me with your charms, that's really love, that's amore

When the day comes to an end And that feelin' comes again (And that feelin' comes again) Playin' games for lovers only On and on a thousand times or more

Play for me and let me dream forever Dance with me surrender to the night

Yes tonight we're gonna sing "Amore" Hear this melody, a song of love Hold me in your arms, that's really love, that's amore Kiss me with your charms, that's really love, that's amore
