

## From Here To L.a.

BZN

Every day, it's working all the time  
Monday morning and Friday's on my mind  
All the days may seem to be the same through the year  
Still looking forward to your company

Then July, a blue sky's, blue's the sea  
I pack my bags, the things for you and me  
Highway, you may lead us to the land of the sun  
I'd like to be forever on the run

Every morning freedom is calling  
A funny feeling that came over me  
When we're talking, slowly we're walking  
Along the road, baby, easy we go

Hey driver give me a chance  
Don't take away a romance  
We're on our way from here to L.A.  
Hey won't you stop for a while  
If so we'll give you a smile  
And you will never forget  
That we have met

Home again, we're dreaming night and day  
The good times that we had, they drift away  
All the days may seem to be the same through the year  
Still looking forward to your company

Every morning freedom is calling  
A funny feeling that came over me  
When we're talking, slowly we're walking  
Along the road, baby, easy we go

Hey driver give me a chance  
Don't take away a romance  
We're on our way from here to L.A.  
Hey won't you stop for a while  
If so we'll give you a smile  
And you will never forget  
That we have met

Hey driver give me a chance  
Don't take away a romance  
We're on our way from here to L.A.  
And you will never forget  
That we have met
