

Montmartre

BZN

On the Montmartre
Along Place du Tertre
The little old cafés to please you
Sitting there and smile, or to rest for a while
Watching the young folks, who're passing you by

Artists and painters
Along Place du Tertre
They'll make you a mem'ry for ever
Don't even move your hands
Just to give him a chance
The picture he's painting, will really be French

We love you Montmartre
Even by darkness, a painters delight
We come to see you, year after year, by day, by night

We love you Montmartre
Even by darkness, a painters delight
We come to see you, year after year, by day, by night
Even by storm and by rain
We hope we'll see you again

High on that mountain
Along Place du Tertre
Where deep in the night life is easy
Where they say, when you go home
"Au revoir et bon voyage"
We're sorry to say "Goodbye and so long"

We love you Montmartre
Even by darkness, a painters delight
We come to see you, year after year, by day, by night

We love you Montmartre
Even by darkness, a painters delight
We come to see you, year after year, by day, by night
Even by storm and by rain
We hope we'll see you again
