

# One Night's Not Enough

C.C. Catch

Every little thing's been said about you  
Babe, you know you light up my day  
Everybody hates to live without it  
And I hope you don't go away

A bitter start with tears  
I can forget my fears  
One night's not enough, can't you see  
To set all my love away from me

One night's not enough, can't you see  
Breaking up  
Breaks my heart  
One night's not enough, can't see you

Baby, if you will ever set me free  
Then our love will break my heart forever and ever  
The way you laugh is very special to me  
Maybe my dreams will come true

And I know, if you should ever leave me  
I would never feel so bad blue  
Maybe behind your eyes  
There will be back surprise

Love lost it's meaning  
It will never stop bleeding  
And my heart is begging  
If I my tears will waking

'Cause I feel so lonely, you are my only
