## **Strangers By Night**

When you're down and feelin' blue Close your eyes, I'll be with you Oh heartache, here comes heartache Makin' love for him was fun He never needed anyone Oh heartache, here comes heartache

Strangers by night Be strangers tomorrow 'Cause deep in the night The light is fooling your hearts And lovers tonight inside our hearts Are lovers tomorrow But lovers by night Sometimes be strangers today

Nights won't last forever, girl Strange are the ways of this world Oh heartache, here comes heartache Cinderella, heroes wait For your hard times it's too late Oh heartache, here comes heartache

Strangers tonight Be strangers tomorrow Lady, tonight Tonight be careful with love Some love is too hot, too hot to stop A bad fall tomorrow And lovers by night Sometimes be strangers today And lovers by night
