

## Feel My Pain

C-Murder

Only thug niggas feel my pain I'ma ride for my homies  
because I'm true to the game  
Ain't no love cause my blood ain't the same as yours  
it's got me knocking on heaven's door  
Feel My Pain (2x)

I lost something in the past that was special to me  
You can't feel what I feel cause this shit's too deep  
So give love to your motherf\*\*king thugs alive cause  
ain't no seeing when your motherf\*\*king loved ones die  
Don't point the finger and criticize what he did  
Invest all your thoughts and all the times he hid  
Will I ever see my brother again time will tell  
I feel like I'm trapped between heaven and hell  
I turned on the radio to forget the fun tears  
coming out my eyes cause I hear I miss my homies  
On top of that my court dates tomorrow  
facing ten years added to my pain and sorrow  
Baby momma don't want me to leave my kids  
We can move to the country and forget what I did  
But reality keep tellin me that ain't cool  
I wanna see my kids go to school  
Feel My Pain

Nobody knows when your time gone come  
I live life to the fullest, True niggas don't run  
Anticipating your death make you soft and sick  
I leave my worries at home when I'm hanging with my clique  
I reminisce about all my niggas that's dead  
A lesson was learned when they put you in the grave  
It don't matter what you got when a nigger gone get cha  
Cause when a nigger gone hit ya a nigger gone hit ya  
Bulletproof with AK's with hundred round drums  
can't stop one bullet penetrating your dome  
That's why I value nothin but family and friends  
you lose material shit you can get it again  
But ain't no coming back when you meet the reaper  
I done lost to many thugs to the permanent sleeper  
Cause ahh everyday a nigger taking a chance  
only thug niggas feel my pain ( feel my pain )

Well uhh my brother dead I can't believe this OHHHH MY GOD
