

Now or Never

C.N.Blue

Through the day, through the night
My selfconfidence was out of site
You came alone, came on strong
And you change the things that fell so wrong
She said

If you heading for the right direction
If you're ready, you can do it too
Gonna rise up to the right occasion
Cause together we can see it through

Baby it's now or never
This time is right oh oh
I got a feelin' it's for good without a doubt oh oh
We are forever me and you
Deep in your heart you know it's true
Baby it's now or never yeah
Feel so right

Goin' up won't go down
There's know stopping us was livin ground
You can do what you do
Not a thing i could deny for you

If you heading for the right direction
If you ready, you can do it too
Gonna rise up to this one occasion
Cause together we can see it through

Baby it's now or never
This time is right oh oh
I got a feelin' it's for good without a doubt oh oh
We are forever me and you
Deep in your heart you know it's true
Baby it's now or never yeah
Feel so right! feel so right!

Baby it's now or never
This time is right oh oh
I got a feelin' it's for good without a doubt oh oh

Oh baby it's now or never
This time is right oh oh
I got a feelin' it's for good without a doubt oh oh
We are forever me and you
Deep in your heart you know it's true
Baby it's now or never yeah
Feel so right!
