

# I've Trucked All Over This Land

C.W. McCall

[Clap your hands and stomp your feet.]  
Well, I've walked the line on 89  
In the Arizona sun  
I've chased the moon and I've caught a star  
On U.S. one-oh-one  
I've seen the sights from the Northern Lights  
To the bend in the Rio Grande  
I've took in a lot of this U.S.A.  
'Cause I've trucked all over this land  
[Start the banjo pickin'.]  
Well, I've changed a tire by the light of a fire  
On the rock-bound coast of Maine  
I've shoveled snow up in Idaho  
Been stuck on the Kansas plains  
I've been to the end of the world and back  
With a wheel and a stick in my hands  
I've passed the test and I've done my best  
I've trucked all over this land  
[Chorus]  
I've trucked all over this land  
From Maine to the Rio Grande  
I've paid the price of a truckin' life  
But I've trucked all over this land  
[Lots of banjo pickin' here.]  
I've heard the wail of a gallopin' gale  
On the road to the Florida Keys  
I've felt the roar of a thunderstorm  
On the Oklahoma seas  
I've set my sail on the Oregon Trail  
I've camped in a redwood stand  
I've loved the best and I've hated the rest  
But I've trucked all over this land  
[Chorus]  
I've trucked all over this land  
From Maine to the Rio Grande  
I've paid the price of a truckin' life  
But I've trucked all over this land  
[More banjo pickin' here.]  
I've said a prayer as I climbed the stairs  
On the Rocky Mountain side  
I've learned the words and I've sung my song  
And I've travelled far and wide  
I've fought the fight and I've done all right  
For the likes of a wanderin' man  
I've paid the price of a truckin' life  
But I've trucked all over this land  
[Chorus]  
Well, I've trucked all over this land  
From Maine to the Rio Grande  
I've paid the price of a truckin' life  
But I've trucked all over this land  
Yeah I've trucked all over this land  
From Maine to the Rio Grande  
I've paid the price of a truckin' life  
But I've trucked all over this land
