

# The Only Light

C.W. McCall

Just another Texas bus stop  
Texas never seems to end  
On my seventh cup a' coffee  
Waitress, hit me once again  
Gotta date in Colorado  
With the woman in my life  
I've seen enough of fairgrounds  
An' singin' in the lights  
'Cause the only light I wanna see  
Is the light that's in the eyes  
Of the woman waitin' up for me again  
Yeah, the only light I wanna see  
Is a candle in the winda  
An' the open door that she'll be standin' in  
Driver says, "It's time, folks"  
So we straggle back on board  
Just me, a nun, two cowboys  
An' a guy in back that snored  
Been twenty-seven hours  
Full a' anything but fun  
An' over my right shoulder  
There's an early-mornin' sun  
But the only light I wanna see  
Is the light that's in the eyes  
Of a woman waitin' up for me again  
Yeah, the only light I wanna see  
Is a candle in the winda  
An' the open door that she'll be standin' in  
Goin' on forty hours  
An' I've been too long alone  
But it's only just a walk, now  
Up the hill and then I'm home  
I've seen too many bus stops  
An' I've sung my share a' songs  
But the spotlight only matters  
When it's shinin' in my home  
'Cause the only light I wanna see  
Is a light that's in the eyes  
Of a woman waitin' up for me again  
Yeah, the only light I wanna see  
Is a candle in the winda  
An' the open door that she'll be standin' in  
[Fade out]  
Yeah, the only light I wanna see  
Is the light that's in the eyes  
Of a woman waitin' up for me again  
Yeah, the only light I wanna see  
Is a candle in the winda  
An' the open door that she'll be standin' in  
'Cause the only light I wanna see  
Is the light that's in the eyes  
Of the woman waitin' up for me again  
Yeah, the only light I wanna see...
