Alone Forever

I can't believe I'm holding on to everything you said When you don't say it anymore

So many people told me But I couldn't breath Just look at me now I can't believe I never knew that at all

It's so hard To realize why you always do this To me, yeah

If you don't open up your heart You don't wanna know How to get me back inside You don't know 'Cuz everytime I try You always keep me waiting All alone forever

I close my eyes To drift away, leave it all behind What I see is just the same

Maybe if I hold you So much to say But where do I start I can't believe That I never knew that at all

Its so hard To realize why you always do this To me, yeah C21
