

# You Are The One

C21

It's early in the morning  
soon another day will dawn  
I can't wait to feel your arms  
around me again

I believe that we could  
lay down the world  
together we could live  
the dream that never ends

Open up the door  
just a little more  
baby let me in

You are the one, You are the one  
who can make moments last forever  
The one that makes the sun shine  
where ever you go  
why make it harder, than it has to be  
just listen, I'll give you love  
if you'll give me your heart

Everytime I near you  
time is standing still  
there's nothing you can't fix  
with your heavenly smile

I would never leave you  
my love is for life  
taking things for granted  
was never my style

Just give a little love  
say you'll never stop  
I'll do anything

You are the one, You are the one  
who can make moments last forever  
The one that makes the sun shine  
where ever you go  
why make it harder, than it has to be  
just listen, I'll give you love  
If you'll give me your heart

And I'll do anything  
if you give me your heart  
ahh ahh yeah  
I'll do anything

You are the one, You are the one  
who can make moments last forever  
The one that makes the sun shine  
where ever you go

give a little love  
say you'll never stop  
and I'll do anything

I'll give you love  
if you'll give me your heart

ohhhhh ohhhhh

Where ever you go  
you are the one  
why make it harder, than it has to be  
just listen, I'll give you love

if you'll give me your heart
