

Desert Island

Cacophony

So much you notice noise
I wanna spend my life on the beach
I'm getting tired, don't get it, shouting
Seems it gets the worst of me

I'm on a desert island
In the middle of the sea
I put a message in a bottle
That's all you'll hear from me

I need some time to loosen up
Get my head on straight
If I don't leave this city
I think I'm going insane

Desert Island...out in the sun (in the sun)
Desert Island...out in the heat (in the heat)

I want some real sunshine
Can't you see I'm crying out?
Break the wall that you built up
And listen to me shout
