

# Hypnotic Psychosis

Cadaveria

Sickness and delirium  
Testimony of madness  
Electric orgasm of frequencies  
Aphrodisiac mosaic of sounds.  
Experiencing a complete absence of nostalgia  
Producing anti-prosaic impact on symphonies.

Arabesques of notes played by disembodied chess master  
Acoustic stimulations for harmonic erections.  
Extracting the basic formula of evil virus  
Screaming, loud noise!

Hysterical physical changes, ghosts waiting for a body.  
Abdicated flashes burning in a cold yellow halo  
The evil is there waiting.  
Grey as ashes  
Galvanized by obscenities.

Hypnotic psychosis  
Visceral stimulations  
Virtual addiction of cerebral events  
Relief from tension.  
Testimonies of horror  
Nubbly degenerations  
Venereal disease.

Catatonic sensations  
Suppurating scars,  
translucent disharmony.  
Administrator of artificial respiration  
Ruling days of black terror  
Asymmetrical pothole, merging several places at once.
