

Nobody

Cadet

Busting through the open air, now I'm getting somewhere
I'll be on the sunnyside nothing's gonna stop this ride
Nothing's gonna stop me

I try to reach the clouds,
they try to shoot me down
I can feel the doubt
but there ain't nobody taking me out

I try to reach the clouds,
they try to shoot me down
I can feel the doubt
but there ain't nobody taking me out

Out of breath and full of fire, boy I'm on a highwire
It's just another do or die, just another long, long night
