

One In The Same

Cady Groves

One foot in my grave
I was fit to be tied,
took a look at my life
Why am I so afraid?

Then you said my name
I was yours from that time,
you put your hand in mine
I'll tell you what I'm gonna do,
whoa

Then you said you'd take me away
Take me along with you boy,
we're on our way
It's just fate I suppose
And I'll never need to know,
if we're gonna make it
'Cause we're one,
one in the same

I'll count the reasons why,
I should count on the day
You'll look in my eyes and say
"This love,
it just dont feel right"
And I'll wipe your eyes,
and say
"Baby dont cry,
'cause i had you this time,
and I'm gonna,
I'm gonna be alright,"

Then you said you'd take me away
Take me along with you boy,
we're on our way
It's just fate I suppose
And I'll never need to know,
if we're gonna make it
'Cause we're one,
one in the same

I'll spend my life,
Fallin' in love with you
It's not wasted
Love's in our favor

Then you said you'd take me away
Take me along with you boy,
we're on our way
It's just fate I suppose
And I'll never need to know,
if we're gonna make it
'Cause we're one,
one in the same
