

# You'd Say

Cady Groves

I tried so hard  
To make you see yourself, clearly  
You said-take it away,  
I can't take the pain  
You said you believed

You just kept getting farther and farther  
Away I tried to save you  
But it never added up to much  
Cause you'd say  
I'm fallin  
Farther and farther  
And everybody sees.

Wish I could make this start  
Wish I could make this start  
Over  
I screamed-take it away  
I can't take the pain  
Whoa

Every single day I tried to tell you  
You were beautiful  
But most of the time you never saw yourself  
For what you really were  
I told you I believed  
I believed in everything  
I believed in everything you said
