

## Dogs

Caesar

You have opened my eyes  
I don't wanna see the dogs and their hungry smiles  
It's very sad, I wanna get out  
I don't have to build a future out of dry food and bones  
Or very soon  
You can make me sit and roll over play dead  
Would be so damn nice  
I don't wanna be your dog for the rest of my life  
Ohohohw

I'm all set to get out  
I'm all set to get out of this voluntary cage  
My future was made  
I had a lot going my way, no way,  
Always a serpentine smile, for the foolish grind  
But then the sun sets suddenly nothing will remain the same  
I'll keep this up until I feel the darkness is around me  
Ohohohw

They are still around me, I can feel 'em coming  
They are all around me, and I'm going under  
My, my, my

So beware, there is always something else we find to fear  
It is not okay, it's a shame. I could blame it on the way we were raised  
And if this is wrong

You can make me sit and roll over play dead  
Would be so damn nice, I'll look back on my dog days as the best of my life  
I'll keep it up until I feel the darkness is around me  
Ohohohw
