

## Prince Valium

Caesar

You disappeared  
Into thin air  
Went up in smoke  
And now you're here

It's not about  
Helping you out  
No psycho-tool  
Will ever do  
Just come on out of your piggysty and explore

You disappeared (I know that it's about)  
Into thin air (I couldn't help you out)  
Went up in smoke (I know that it's about)  
And now you're here (I couldn't help you out)  
Come on out of your piggysty and explore

Had a dream tonight where you were walking in my room  
Jumped up tried to hit the light but I fell right through the floor  
Something told me I would never find you anymore  
What a scary feeling to be left here all alone  
Had a dream tonight and it was wrong

Come on out of your piggysty and explore
