I told a friend 'bout the mess I was in
Made him feel good, but the problem remained
It's not easy, nothing is no more
I saw the future and I said
This kind of fear makes me run for my life
Should find a love that can save me tonight
It's not easy, nothing's easy anymore
Father, where did I go wrong, come alive...

I told a friend how I messed up my life
Should find a love just to save me tonight
It's not easy, nothing's easy anymore
Father where did I go wrong, come alive...

I'm traveling again,
I'll live to see the end
Is it too soon to go?
You never really know
