Cage the Elephant

Fall into that black whole honey
Looking up from your eyes
Everything that you ever wanted
You fight, but why?

Fold it up just like a piece of paper
Take your sweet little time
You can write it on the sidewalk yeah
But you'll find, it's not right

And now you're walking through the door
Just like 2024
Said I gotta believe
Someday you'll see
Someday you'll see that there's something more
Yrah there's something more
That's why you're so bored
Oh there's something more

And now he's standing at your front door
Nowhere better to be
But I can see you tie your own shoe laces
You bleed

Fall in love just like a newborn baby
Blonde hair and blue eyes
Taking pictures with your Polaroid camera
You'll find, it's alright

And now you're walking through the door
Just like 2024
Said I gotta believe
Someday you'll see
Someday you'll see that there's something more
Yrah there's something more
That's why you're so bored
Oh there's something more

And now you're walking through the door
Just like 2024
Said I gotta believe
Someday you'll see
Someday you'll see that there's something more
Yrah there's something more
That's why you're so bored
Oh there's something more
