Cold Cold Cold

Cage the Elephant

Doctor look into my eyes I've been breathing air but there's no sing of life Doctor the problem's in my chest My heart feels cold as ice but it's anybody's guess

Doctor can you help me 'cause I don't feel right Better make it fast before I change my mind Doctor can you help me 'cause I don't feel right Better make it fast because it's ain't much time

Well it's cold cold cold inside Darker in the day than the dead of night Cold cold cold inside Doctor can you help me 'cause something don't feel right something don't feel right

Sweet nurse don't look at me that way I've seen those eyes before I can tell you want to play Counselor give me some advice Tell me how hard will i fall if i live a double life

Doctor can you help me 'cause I don't feel right Better make it fast before I change my mind Doctor can you help me 'cause I don't feel right Better make it fast because it's ain't much time

Well it's cold cold cold cold inside Darker in the day than the dead of night Cold cold cold inside Doctor can you help me 'cause something don't feel right something don't feel right something just ain't right

And as the darkness falls it fills up both my eyes My life before me like a flash in the night with my arms open w ide

Well it's cold cold cold cold inside Cold cold cold cold inside Cold cold cold cold inside Doctor can you help me 'cause something don't feel right something don't feel right something just ain't right
