Halo

Cage the Elephant

Every time I get away you find a way to reel me back in. (aah) Tell me that you love me hold me tight so we can always be friends. (aah) I swear I've said it before, and I say it again! (aah) Every time I get away you find a way to pull me back in. (aah)

Why does it take so long? Why does it feel so wrong? Why does it take so lo-oo-ong?

Knew I, couldn't help myself
I had to lay low.
So I, couldn't help myself
I lost my halo.

Take me by the hand and still remember all the good times we had. (aah) I remember how you took my favourite knife and sticked under my skin. (aah) I swear I've said it before, and I say it again! (aah) Every time I get away you find a way back under my skin.

Why does it take so long? Why does it feel so wrong?

Knew I, couldn't help myself
I had to lay low.
So I, couldn't help myself
I lost my halo.

All my life With a skeleton. I had to let go.

So I, couldn't help myself I lost my halo. I lost my halo I lost my halo
