## **James Brown**

## **Cage the Elephant**

Run around the corner Fell asleep in the sun You had to move into the shade Before you fire the gun

We got a hunger for destruction Need someone to bleed You sealed the deal before the dawn You let your actions proceed

Some sunny day they're gonna come for you Some sunny day they're gonna come for you Sooner or later said you know that it's true Some sunny day they're gonna come for you

You think you're so sly
You tried to roll by
You played the safe side
You said will somebody take me

Down town
Another James Brown
You made the same sound
You said will somebody write this down .... down

Fightin' back revenge You've got you're face to the ground You make excuses for the madness You've been hanging around

You built a house up in the trees So you could see everyone You set the clock and had a run You set the clock and had a run

Some sunny day they're gonna come for you Some sunny day they're gonna come for you Sooner or later said you know that it's true Some sunny day they're gonna come for you

You think you're so sly
You tried to roll by
You played the safe side
You said will somebody take me

Down town
Another James Brown
You made the same sound
You said will somebody write this down....down
Some sunny day they're gonna come for you
Some sunny day they're gonna come for you
Sooner or later said you know that it's true
Some sunny day they're gonna come for you

You tried to roll by You played the safe side You said will somebody take me Down town
Another James Brown
You made the same sound
You said will somebody write this down
