

## Days of Emptiness

Cales

Sore days of emptiness  
There's no end to the winter  
Twilight carries through  
Despair reigns over your heart  
You don't know where to start  
Frustration eats deeps into you  
Prospects of a better future are a cynical utopia  
As if everything's been lost  
Its just a question of time  
You need to find inspiration  
Look up and let it pass by  
And don't forget that whenever you call me  
I'm here for you my friend  
There's so much ahead for both of us  
There's so many beautiful girls out there  
Waiting for you to make your wishes come true  
Dont be a hick, turn that fucking tv off  
Get out of your flea-bitten den  
Change your shorts and let's go  
We're gonna rock tonight  
Oh, I almost forgot  
Im broke, could you front me?
