

## Fractured Air (Tornado Watch)

Calexico

From the delta to the plains  
Storms touching down again  
Devil's hiding in the house  
Angel's in the rain

Corrugated lovers swimming on the wire  
Switching on and off the breakers  
On a night like this  
No one should be alone

In the fractured air  
Misfired from a distress flare  
All the while searchlights reconcile  
Cut their losses and run

Clinging to the rooftop  
Losing track of days  
Devil's up in the attic  
Angel's lost her way

Must've misdialed the number  
Or the telephone's died  
Lost you in the darkness  
And never heard back  
Dropped out from the night  
Like a stone

Falling from the fractured air  
Misfired like a distress flare  
All the while searchlights reconcile  
Cut their losses and run
