

Red Dust

Calexico

Dust gets red, and red dust plays
On the wind near Daniel's place
Danny's sick and smaller boy's
Rhythm lingers on and on

On and on, on and on
On and on, on and on

Dust gets dead the sun gone down
Danny's boy lies in the ground
Guitar on the dead boy's chest
Devil's granting a last request

Play on and on, on and on
