Everything is seen double,
Everybody's got a come!
You see two but myself I see four,
But to back it up and dump it,
Make sure you hit the flow!
All I need is to be the super bumpin
In a chick with a face something like Latoya looking,
We both... the zone,
Something like a puppet,
And her booty like a pillow,
Make it smooth, wanna plump it.
Make that back get out like a new song or album,
I just wanna play out in the middle like Malcolm.
My name ain't big, but I'm something like a...
I fly where I wanna be, where are women under me.

I'm in the back with that Carnavaux,
With the light on my neck like a Carnavaux,
Is too many girls and I want them all,
The way they bounce that thing like a basketball!
Call on my Willy, he's talking about Monica,
She backed it up and dump him like a truck.
Nock her, send your bullies home,
Just to fly on my rib or drink when the boy passed by.
She's looking like a Cupid,
So I think I need her,
She said her name was Nina,
She reminded me of my heater.
So I grabbed her by the waist, pull her back
And made her dump it!

Criminal bootie, oh my God, I could...

Look at her legs, she can't get no thicker,
And if she did, she ain't be fat,
Back it up and dump it for me, baby just like that!
Hey ya! Baby let your weave down,
If you ain't with the boys in the V.I.P league now,
Cause all it's... and I like rhyming,
Grab that pole, and... like diamond,
It hurts all, it ain't no finding,
All the rap booty, big booty duty,
I think me and you girl we should go make a movie,
I'm not playing games, I'm calling you for a duty.
