

## Devil's Night

Caliban

Once upon a time at the devil's night  
I lost my heart - my heart and light  
I am dead - dead but alive  
A forgotten soul with savage eyes

I'm the demon you created - this nightmare is real  
I'm the shadow behind - I'm everything you fear

Through blood and tears we broke this spell  
You'll be by my side  
Sleep well my darling - goodbye farewell  
You'll be by my side

Black scars and a harlequin's face  
Death in disguise - fallen from grace  
Vengeance is mine  
Crow-shaped blood stain (in) darkness divine

I'm the demon you created - this nightmare is real  
I'm the shadow behind - I'm everything you fear

Through blood and tears we broke this spell  
You'll be by my side  
Sleep well my darling - goodbye farewell  
You'll be by my side

We fly away - on broken wings  
This is the end of everything - salvation!!!

Through blood and tears we broke this spell  
You'll be by my side  
Sleep well my darling - goodbye farewell  
You'll be by my side
