

I Will Never Let You Down

Caliban

Oh

My Conscience
For Everything you want
Lets go, light the flame
Are you in a dream or do you awake?
I walk to you, so open up your eyes
I see, What to be
its a simple life for us

Forever
We Will Be Together
do you, for life
and let go, let me leave
to be freed

Im Living
your eyes, forevermore
im living
your gone with a smile

my Thrill, of that is fake
you never knew who i was
my pain, and i leave
i'll take it away from you
first off, of you
dont open up your eyes
and see, what to be
the word is never

Eyes
Open forever

Im Living
your eyes, forevermore
im living
your gone with a smile

I wont ever let you down
let you down

Forever
We will be together

Together for life
and let go, let me leave
to be freed
