

Biggest Fan

Call Me No One

There's nothing worse than a hero
Condescending believer
You choke down doubt
There's something missing I know
I'm a miracle seeker
I'm digging now

I'm now your biggest fan
I really mean it

We're all the same
Now follow me down to the end
We're all the same now
Follow me, follow me

Do you believe in your words
Or find it hard to deliver

You sell us out
Your here to stay
In time we'll see if you forget
Where you came from
Your sinking now burn down

You are your biggest fan
I know you mean it

We're all the same
Now follow me down to the end
We're all the same now
Follow me, follow me

We're all the same
Now follow me down to the end
We're all the same now
Follow me, follow me

You are your biggest fan
I know you mean it

We're all the same
Now follow me down to the end
We're all the same now
Follow me, follow me

We're all the same
Now follow me down to the end

We're all the same now
Follow me, follow me

You are your biggest fan
