

# Ain't Life Grand

## Call the Cops

God your face is so persuasive  
Let's just face this cause I can barely even hold on  
Never thought that I'd be here for long  
So baby why don't you

Live it up live it up live it up now  
I swear it baby, baby like you're losing control  
Live it up live it up live it up and never let down  
Do you even see what I've been trying to get across to you?

Got the cold shoulder  
I never meant to hold her  
As we got older  
I realized all she ever did was lie to me  
I'll try to be the boy you wanted all along  
The one that wiped your eyes and told you you were perfect

Live it up live it up live it up now  
I swear it baby, baby like you're losing control  
Live it up live it up live it up and never let down  
Do you even see what I've been trying to get across to you?  
Do you even see what I've been trying to get across to you?  
Do you even see what I've been trying to get across to you?

Got the cold shoulder  
I never meant to hold her  
As we got older  
I realized all she ever did was lie to me  
I'll try to be the boy you wanted all along  
The one that wiped your eyes and told you you were perfect

Perfect you're not worth it yeah yeah  
You're not perfect, you're no daisy, you're not worth it  
Not at all

Got the cold shoulder  
I never meant to hold her  
As we got older  
I realized all she ever did was lie to me  
I'll try to be the boy you wanted all along  
The one that wiped your eyes and told you you were perfect

Got the cold shoulder  
I never meant to hold her  
As we got older  
I realized all she ever did was lie

Got the cold shoulder  
I never meant to hold her  
As we got older
