

Crash

Call the Cops

I see you wrapped around her fingernail
I feel so left out, I think you missed out
Intoxicated until the truth comes out
Here comes the let down, here comes the let down

She's telling me things, she's telling me how she wants it
She's telling me everything, she's telling me she don't want it

I'm caught up in the crash, she got me falling so fast
She's getting off on the last heart she tore apart (and crashed)
She's such a high
You know that I can't wait, can't wait to watch you crash

I never meant to ex your pictures out, I feel you left me out, I feel you left me out
I see a little bit of me in you, it should be me and you
I know you want that too

She's telling me things, she's telling me how she wants it
She's telling me everything, she's telling me she don't want it

I'm caught up in the crash, she got me falling so fast
She's getting off on the last heart she tore apart (and crashed)
She's such a high
You know that I can't wait, can't wait to watch you crash

I'm caught up in the crash, she got me falling so fast
She's getting off on the last heart she tore apart (and crashed)
She's such a high
You know that I can't wait, can't wait to watch you crash

Crash into the night together
Me and you should be together
Forever in this mess we call our own

Crash into the night together
Me and you should be forever
Forever shouldn't feel like it's too long

I'm caught up in the crash, she got me falling so fast
She's getting off on the last heart she tore apart (and crashed)
She's such a high
You know that I can't wait, can't wait to watch you crash

I'm caught up in the crash, she got me falling so fast
She's getting off on the last heart she tore apart (and crashed)
She's such a high
You know that I can't wait, can't wait to watch you crash

I'm caught up in the crash, she got me falling so fast
She's getting off on the last heart she tore apart (and crashed)
She's such a high
You know that I can't wait, can't wait to watch you crash

Crash into the night together
Can't wait to watch you crash
Me and you should be together

Can't wait to watch you crash
