Like it like that

Call the Cops

'Cause you know I like it like that And I'll teach you something like that And I know you like it like that

You've heard, about my reputation Of rumors spread by haters Just stories they created

We talk, you always get so nervous That what if this gets out And everybody knows it

The way you make me feel Is it wrong to go along Or does it feel right

You can't say this ain't real Even though you're still with him It's just a matter of time And you can quote me when I say

So what if your friends can't keep a secret It's alright
If it gets back to what's his name, I don't mind And if it's a problem, he knows where to find me If you wanna say something
And tell his friends I say the same

'Cause you know I like it like that And I'll teach you something like that And I know you like it like that

You swear, but I know you like the drama How everybody's talkin' about you Waitin' in the corner

You say, It's such an awful game
If you can't admit the truth about it
I'll just take the blame

The way you make me feel Is it wrong to go along Or does it feel right

You can't say this ain't real Even though you're still with him It's just a matter of time And you can quote me when I say

So what if your friends can't keep a secret It's alright
If it gets back to what's his name, I don't mind And if it's a problem, he knows where to find me If you wanna say something
And tell his friends I say the same

I'm telling you it's alright

If he finds out
I don't mind
'Cause I got nothing, I got nothing left to lose

I'm telling you it's alright
If he finds out
I don't mind
'Cause I got nothing, I got nothing left to prove

'Cause if it's a problem
He knows where to find me
If he wants to say something (something)
And tell his friends I said the same

So what if your friends can't keep a secret It's alright
If it gets back to what's his name, I don't mind And if it's a problem, he knows where to find me If you wanna say something
And tell his friends I say the same

'Cause you know I like it like that And I'll teach you something like that And I know you like it like that (2x)
