

## Pulverized

Calla

Gave you several reasons  
You drowned in sympathy  
I gave you room to breathe in  
You held your trust in me

Just forget it, I'll regret it  
Quote me on the first, 'cause the worst is to come  
Don't believe it, you don't need it  
Forget every word that I said that you heard

You gave me all the reason  
To not pretend to need  
I don't deserve this freedom  
You handed off to me

Just forget it, I'll regret it

Quote me on the first, 'cause the worst is to come  
Just admit it, you know you did it  
Forget every word that I said that you heard

Just forget it, I'll regret it  
Quote me on the first, 'cause the worst is to come  
Just admit it, I know you did it  
Forget every word that I said that you heard

Try and tell him something  
That you don't believe you're gonna regret
