Calla

Effective incentives
How dare you stand corrected
No motives, intentions
A single thought to call your own
Deceptive, defensive
Don't look at me rejected
Conclusions, dillusions
Look at you standing all alone
All alone, all alone, all alone

A passive aggressive
You didn't get the message
A second opinion
A word that turned into a crime
A massive offensive
You seem to me obsessive
Your version diversion
So tell me something I don't know
All alone, all alone, all alone

Effective incentives
How dare you stand corrected
A motive, intentions
Beyond all recongnition
Deceptive, defensive
Don't look at me rejected
A passive aggressive, you didn't get the message
A massive offensive you seem to me obsessive
Conclusions, delusions
Look at you standing all alone.
