

The Dive

callahan

Well, we were young, but we were praying for this
With our hearts full of love, we can't resist
Prepare ourselves for the long run... wait!
Don't blink, 'cause we're older now
And we're wondering how it all turns out
With hopes, how high, we take the dive

Like the first time I saw your eyes
I hope it's the last time we say goodbye
Wherever tomorrow's roads may lead you
I hope the happiness it brings you
Is everything you wanted to find
When you changed your mind

When we were young, we had it all planned out
Pack our bags and we'll leave this town
We'll chase our way down the coastline
Every day is a brand-new day
We're turning this life around
We'll do what we want to
Be who we want to

They say be patient and wait for your sign
But some people wait for a lifetime

Like the first time I saw your eyes
I hope it's the last time we say goodbye
Wherever tomorrow's roads may lead you
I hope the happiness it brings you
Is everything you wanted to find
When you changed your mind

What if it's the first?
What if it's the last?
What if it's everything we have,
everything we're holding too tight?
And when you sleep at night
I hope you wake to find
Every time feels just like the first time

Like the first time I saw your eyes
I hope it's the last time we say goodbye
Wherever tomorrow's roads may lead you
I hope the happiness it brings you
Is everything you wanted to find
When you changed your mind

Like the first time I saw your eyes
I hope it's the last time we say goodbye
