

## Kinder der Nacht

Callejon

you can not sleep -  
Although you are so tired yet?  
Then come with me  
and I'll show the rest of the world!

Without shadows, because no light falls,  
it is more easily through the world  
In my veins pure ethanol  
tarred lungs farewell

I am a child of the night  
Brother of Sleep is death!  
I am a child of the night  
If the dawn I ...

Since then I re-invented  
my old skin no longer fits  
A dress of pale meat scraps -  
For something new now is the time!

This is not a hymn  
There is despair in the end  
And are dus sorry I let you here  
It further accuses me (do not stay here!)

Step by step  
Piece by piece  
decays away the life of happiness  
The light it hurts, because it is wrong  
We move on here it's cold!

I am a child of the night  
Brother of Sleep is death!  
I am a child of the night  
If the dawn I ...

Since then I re-invented  
my old skin no longer fits  
A dress of pale meat scraps -  
For something new now is the time!

When birds sing, the day awakes  
I lie quiet good night
