## **Unstoppable**

Come and lay right on my bed, sit and drink some wine I'll try not to make you cry And if you'd get inside my head, then you'd understand Then you'd understand me Why I've felt so alone, why i kept myself from love And you became my favorite drug So let me take you right now and swallow you down, I need you inside

If we had this night together If we had a moment to ourselves If we had this night together, then we'd be Unstoppable

Do you think that this is right, or is it really wrong I know that this is what we've been wanting And all this is burning in my soul, it fills up to my throat It fills up till my heart is breaking

If we had this night together If we had a moment to ourselves If we had this night together, then we'd be Unstoppable

Now, we can both learn Somehow, you'll see it's all we have Love, it keeps us together and I need love

When I wake up without you, knowing you're not there I'm only feeling half as good Well I'm gonna find a way To wrap you in my arms, you make me feel alive

If we had this night together If we had a moment to ourselves If we had this night together, then we'd be Unstoppable
